### What is the Big6?

The Big6 is an information literacy model. Some people call it a metacognitive scaffold, or an information problem solving strategy. Developed by Mike Eisenberg and Bob Berkowitz, the Big6 is the most widely-known and widely-used approach to teaching information and technology skills in the world. When you apply the Big6 steps, you have an essential framework to approach any information-based question. [read more...](#)

### Announcements

#### March 15, 2004: Big6 Online Course Reopens

This online course goes beyond traditional library location and access skills to emphasize the Big6™ Skills, a six-step approach to problem-solving that integrates information search and use skills along with technology tools in a systematic process to find, use, apply, and evaluate information to specific needs and tasks. This graduate level course is offered by the University of Washington in collaboration with Big6 Associates and approved by the College of Education. [read more...](#)

#### March 1, 2004 -- Editorial: Capitalizing on Teaching to the Test: Your Role in Testing -- by Bob Berkowitz

"The lives of students and everyone involved in their education are increasingly revolving around tests. Teachers are narrowing their curriculum to teach to the test. School administrators are becoming score obsessed." [read](#)

### Big6™ Academy

Bob Berkowitz leads an intensive 2-day Big6 Leadership Seminar in Rochester, New York! Limited to 30 attendees. [Read more.](#)

### Big6™ Online Course

Learn Big6™ and technology, instructional design, assessment, curriculum mapping, peer collaboration, the parent connection, and program implementation plans. 10 weeks, 3 credits. [Register today!](#)

### Why Big6?

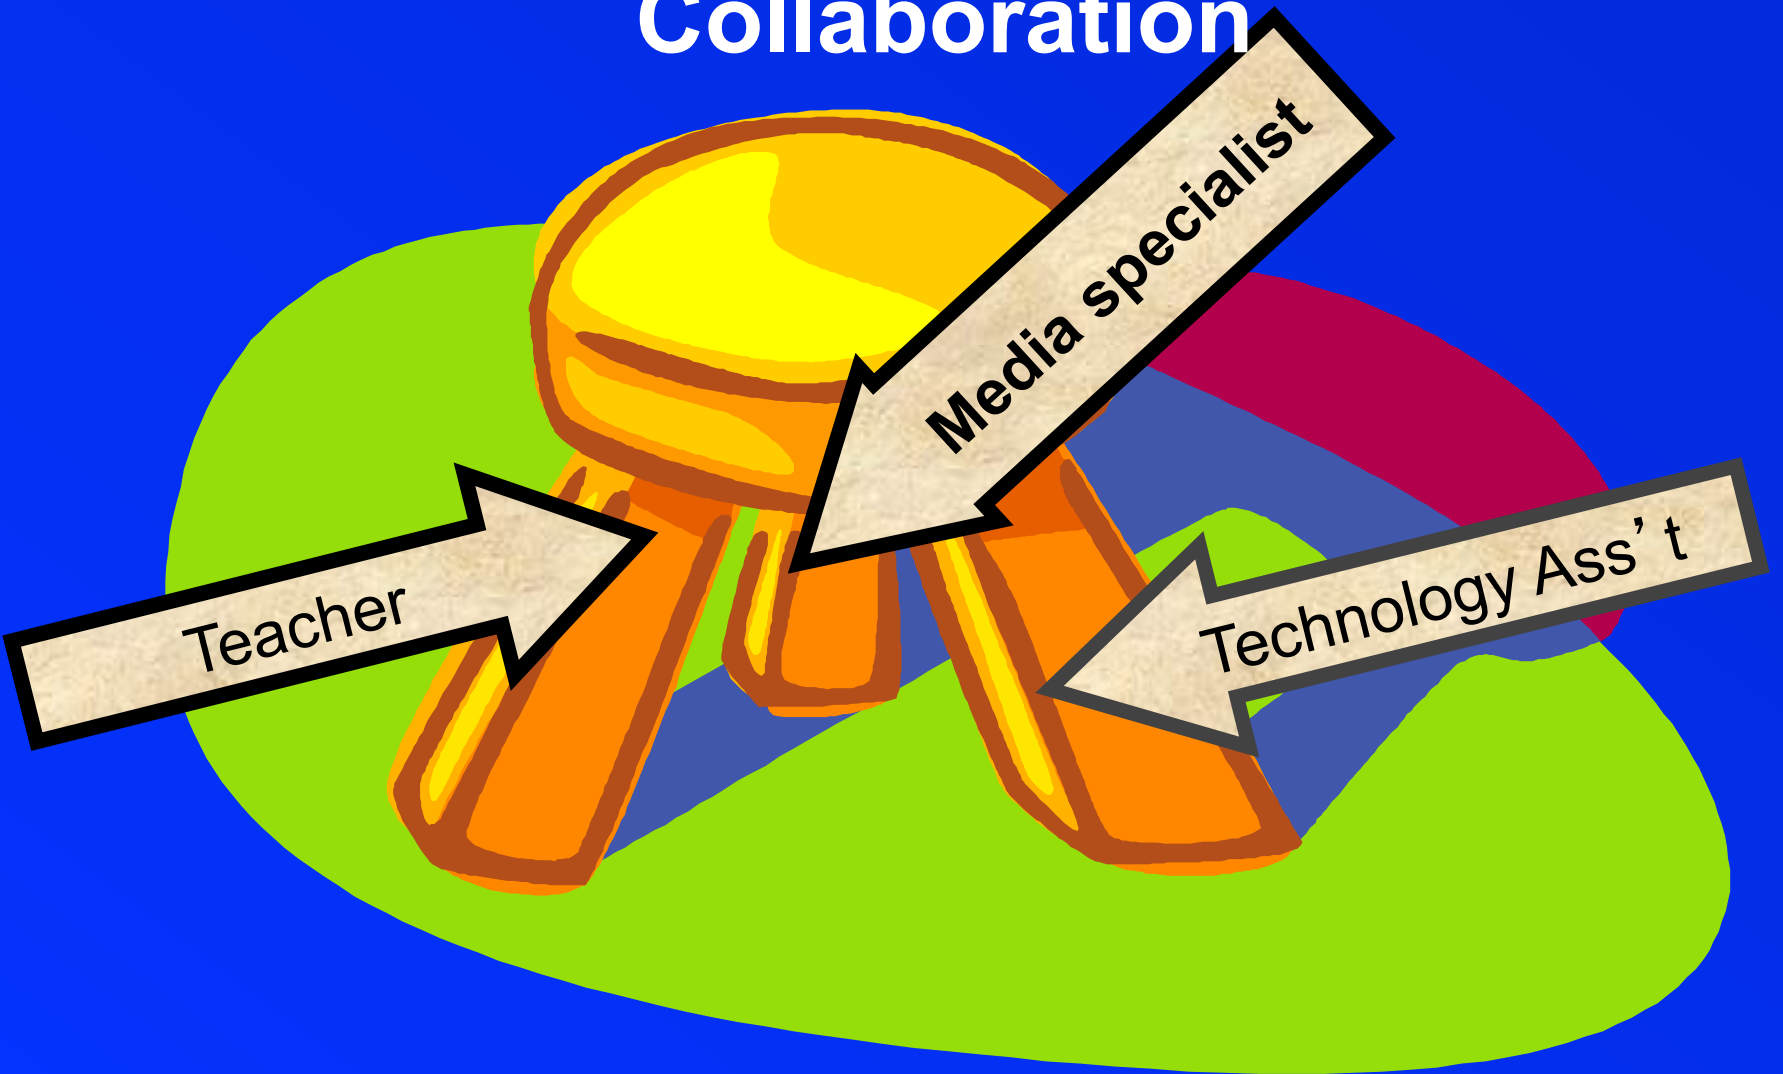

"I know that this process gets our students organized, thinking about their needs and the work that they do." - Melinda Miller-Widrick, Colton, NY.
